

Renee Guldi

SDEV220 – Prof. Chris Francis

Final Project Documentation/User Manual

- <https://rguldi.pythonanywhere.com/>
  - To use this page you will fill out the form criteria (First & Last Name, Yearly Salary, Email, Phone Number, and utilization of the drop down menu to select your quote type that fits your business needs).
  - Ex. Input
    - John Doe
    - 40000
    - [john\\_doe@gmail.com](mailto:john_doe@gmail.com)
    - 317-123-4567
    - Drop down menu of options
      - (offer-one, offer-two, offer-three)
- To retrieve data regarding a quote for a client, you will need to access:
  - <https://rguldi.pythonanywhere.com/admin-query/>
    - There are already three failed-quotes that require the admin-user to reach out to the client.
    - To query an offer, you will have to know the client's name and email entered to view the quote directly.
